Q8: Here is a short description of The Community-Based School Districts Initiative, that would be on the ballot in 2024: Nevadans would vote on whether cities and towns can choose to leave their county school districts, and instead create new, smaller school districts only for that city or town. Here are two statements about the Initiative, which is closer to your opinion?

Nevada public schools are struggling. Smaller school districts will create more local control, and improve student outcomes.	38	40	37	33	41	38	39	38	38	38	39
Nevada public schools are already struggling. Letting cities and towns leave county districts will lead to wealthier and whiter communities creating new school districts only for their children. This will mean less money for low-income school districts, and worse student outcomes for Black children and other children of color.	62	60	63	67	59	62	61	62	62	62	61

Q9: You may be aware that in Nevada, people who are in jail because they cannot afford bail or are serving time for a misdemeanor, are legally allowed to vote. But in reality, it is very hard for them to actually vote. Do you agree or disagree with the following statement: Nevada should pass a law to make sure that people in jail who are legally allowed to vote, are informed of their voting rights and provided an easy way to vote, similar to all other citizens.
